AS9120B Internal Auditor Training for Aerospace Quality Management Systems (AQMS)

Course Duration: 3 Days

Seminar Content

Omnex is an Exemplar Global Certified TPECS provider for Exemplar Global-QM and Exemplar Global-AU Competency Units. This seminar fully covers the ISO 9001 requirements in addition to the requirements of AS9120B, which is the quality management standard for Aviation, Space and Defense organizations. Other topics include audit systems, the auditing process and audit instruments; the documentation process, conducting an audit, writing the audit report, and taking corrective action. Auditing case studies to develop skills for identifying nonconformities will be used.

Note: The Aerospace Auditor Transition Training (AATT) must also be completed in order to become a certified Aerospace Auditor.

Aerospace Process Approach Auditing has three main components – Process Auditing, Customer Focus and Leadership Auditing – each of which must follow the requirements laid out in AS9101F. This course will give instruction and guidance on conducting the Process Audit using the PEAR form and Turtle Diagrams.

Attendees who successfully pass the exams during this course will achieve a Certificate of Attainment for the following competency units:

- Exemplar Global-QM
- Exemplar Global-AU

Learning Objectives

- Understand the application of Quality Management Principles in the context of ISO 9001 and/or AS9120B.
- Relate the quality management system to the organizational products, including services, and operational processes.
- Understand the application of the principles, procedures and techniques of auditing.
- Understand the conduct of an effective audit in the context of the auditee's organizational situation.
- Understand the application of the regulations, and other considerations that are relevant to the management system, and the conduct of the audit.
- Practice personal attributes necessary for the effective and efficient conduct of a management system audit.

Seminar Outline
