# AS9146 Understanding Training for FOD Prevention Program

Course Duration: 1 Day - 8 Hours/day

## Seminar Content

- This course is specifically designed to give students familiar with AS9100 an understanding of the Aerospace standard for Foreign Object Damage (FOD) prevention program requirements.

Attendees will understand how the AS9146 standard complements the AS9100 requirements for FOD prevention in sections 8.1 and 8.5.

This class also illustrates the need for a FOD prevention program and how this standard can be flowed down in contractual requirements.

## Learning Objectives

- Illustrate the need for a FOD prevention program and how this standard can be flowed down in contractual requirements.
- Understand the AS9146 standard and the importance of FOD prevention.
- Gain familiarization of the FOD prevention program requirements and how to implement, improve, and audit such a program.

## Seminar Outline

- Chapter 1: Introduction to AS9146
- Chapter 2: Definitions of AS9146
- Chapter 3: FOD Prevention Program Requirements

## Who Should Attend

This course is designed for Senior Leadership, Quality Managers, 5S Leaders, Production supervisors, Internal Auditors, and Process Engineers.

## Seminar Materials

Each participant will receive a seminar manual.

**Note:** Omnex does not provide copies of standard(s) during training courses, but clients are encouraged to have their own copy.

## Pre-Requisite

All participants must have a working knowledge or be familiar with AS9100D. This course covers the requirements of AS9146 and recommended practices from one of our SMEs in Aerospace product manufacturing.
