# AS9100D

## Lead Auditor Training for Aerospace Quality Management Systems

Training Duration : 5 Days

### Seminar Content

Omnex is an Exemplar Global Certified TPECS provider for Exemplar Global-QM, Exemplar Global-AU and Exemplar Global-TL Competency Units. This seminar fully covers the ISO 9001 requirements in addition to the requirements of AS9100D, which is the quality management standard for Aviation, Space and Defense organizations. Other topics include audit systems, the auditing process and audit instruments; the documentation process, conducting an audit, writing the audit report, and taking corrective action. Auditing case studies to develop skills for identifying nonconformities will be used.

*Note: The QM competency unit can only be used for ISO 9001 auditor certification. There is an additional AS9100D e-Learning module offered through IAQG which also must be completed to become an IAQG-certified aerospace auditor.*

Aerospace Process Approach Auditing has three main components – Process Auditing, Customer Focus and Leadership Auditing – each of which must follow the requirements laid out in AS9101F. This course will give instruction and guidance on conducting the Process Audit using the PEAR form and Turtle Diagrams, as well as other requirements specific to AS9101F.

Attendees who successfully pass the exams during this course will achieve a Certificate of Attainment for the following competency units:

- Exemplar Global-QM
- Exemplar Global-AU
- Exemplar Global-TL

### Who Should Attend

This seminar is designed for Management Representatives, AS9100D Implementation Teams, Internal Auditors and others who would like to develop judgment and decision-making in AS9100D and learn the auditing process for first, second, and third party auditors.

### Recommended Training and/or Experience

An extensive understanding of the AS9100D requirements and/or work experience in applying AS9100D is recommended.

### Seminar Materials

Each participant will receive a seminar manual and a breakout workbook that includes auditing case studies.

### Seminar Goals

- Understand the application of Quality Management Principles in the context of ISO 9001 and/or AS9100D
- Relate the quality management system to the organizational products, including services, and operational processes
- Understand the application of the principles, procedures and techniques of auditing
- Understand the conduct of an effective audit in the context of the auditee's organizational situation
- Understand the application of the regulations, and other considerations that are relevant to the management system, and the conduct of the audit
- Practice personal attributes necessary for the effective and efficient conduct of a management system audit
- Establish, plan and task the activities of an audit team
- Communicate effectively with the auditee and audit client
- Organize and direct audit team members
- Prevent and resolve conflict with the auditee and/or within the audit team
- Prepare and complete the audit report
