

CORPORATE PRESENTATION

Building Worldwide Business Excellence

Presentation Agenda

1 Omnex Group Overview

The group's practices, brands, and solution

2 Worldwide Operations

24x7 focus in assisting our worldwide clients

3 Omnex Solutions

Innovative solutions to Business Excellence

4 Client Relationship & Leadership team

A diverse team with longstanding relationships with key clients

5 Long term association

What do we learn today?

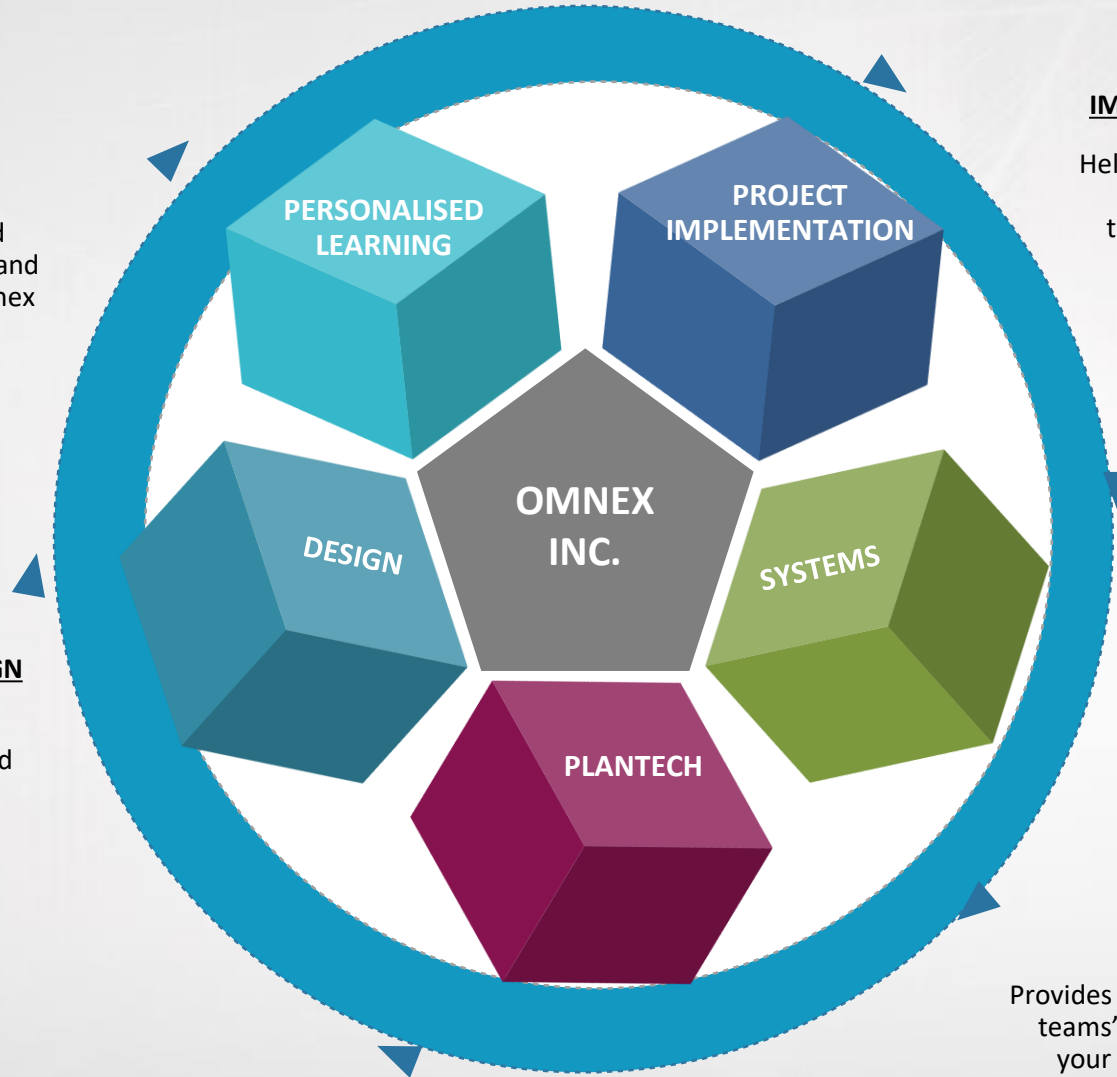

Omnex Inc.

Center of E- LEARNING EXCELLENCE

CoEE focuses on Personalized Learning, Distance Learning, and Virtual Classrooms using Omnex Live-Learn IT Platform.

FUNTIONAL SAFETY PART DESIGN

Omnex's Engineering Services division focuses on Hardware and Software development for Functional Safety, ASPICE, Cybersecurity and SOTIF.

IMPLEMENTATION & COACHING

Helps implement Standards, Tools & Methodologies for 6 major target markets. With more than 200 workshops and Implementation programs.

DIGITAL COLLABORATION SOFTWARE PLATFORM

Our IT Collaboration platform provides 7 major solutions for Automotive, EV-AV, Aerospace, Medical Devices, Semiconductor-Hitech, including Supply Chain

SKILL AUGMENTATION & OUTSOURCING

Provides outsourced manpower for your teams' short term needs: Augmenting your team' Skill & Competency, TPM implementation, Outsourcing of SQE, PPAP Reviews and Auditing

Omnex and its group companies bring to you cutting edge business improvement Practices, Tools & Methods that increase your competitiveness in the world market.

OMNEX CENTER OF EXCELLENCE FOR E-LEARNING

Building Worldwide Business Excellence

- | Certified Excellence Auditors

- | Lean Six Sigma Black Belts
- | Certified Lean/ TPM Sensei
- | TWI Certified Trainers

- | Certified Functional Safety Engineers
- | ASPICE Assessors
- | GD&T/MBD Trainers

6 Target Markets

1 AUTOMOTIVE

Omnex began with the Automotive industry by helping FORD & their suppliers 1985. We are the pioneers in developing & implementing Auto Industry standards

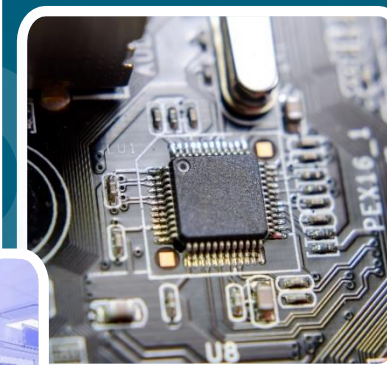

2 AEROSPACE

Omnex ventured into the Aerospace industry through our association with UTC & Bombardier. We continue to work with our Principals & Senior Engineers, with a prime focus to make an impact the Aerospace industry

3 SEMICONDUCTOR HI-TECH

Omnex started work with the Semiconductor Industry when SAC, a Global Semiconductor member association, was looking for a Partner to help their member base in 1999. We continue working with the world's Top Semiconductor and Hitech organizations.

5 ELECTRIC-AUTONOMOUS VEHICLE

Omnex works with the largest EV-AV OEMs and their Supply Chain. Right from Silicon Valley, to Tianjin, China, you name the major players, we have worked with them

4 MEDICAL DEVICES

Omnex works with 33 of the Top 100 Medical devices companies and their Asia Supply Chains. Our Subject Matter Experts are on the Standards' writing committees for Medical Devices and are experts in regulatory compliance

6 GENERAL MANUFACTURING

We have been working with the Who's Who of the General Manufacturing & Engineering industry for Management Systems, Productivity, Lean/Six Sigma, Supply Chain & IT Digitization for over 25 years

OMNEX

www.omnex.com

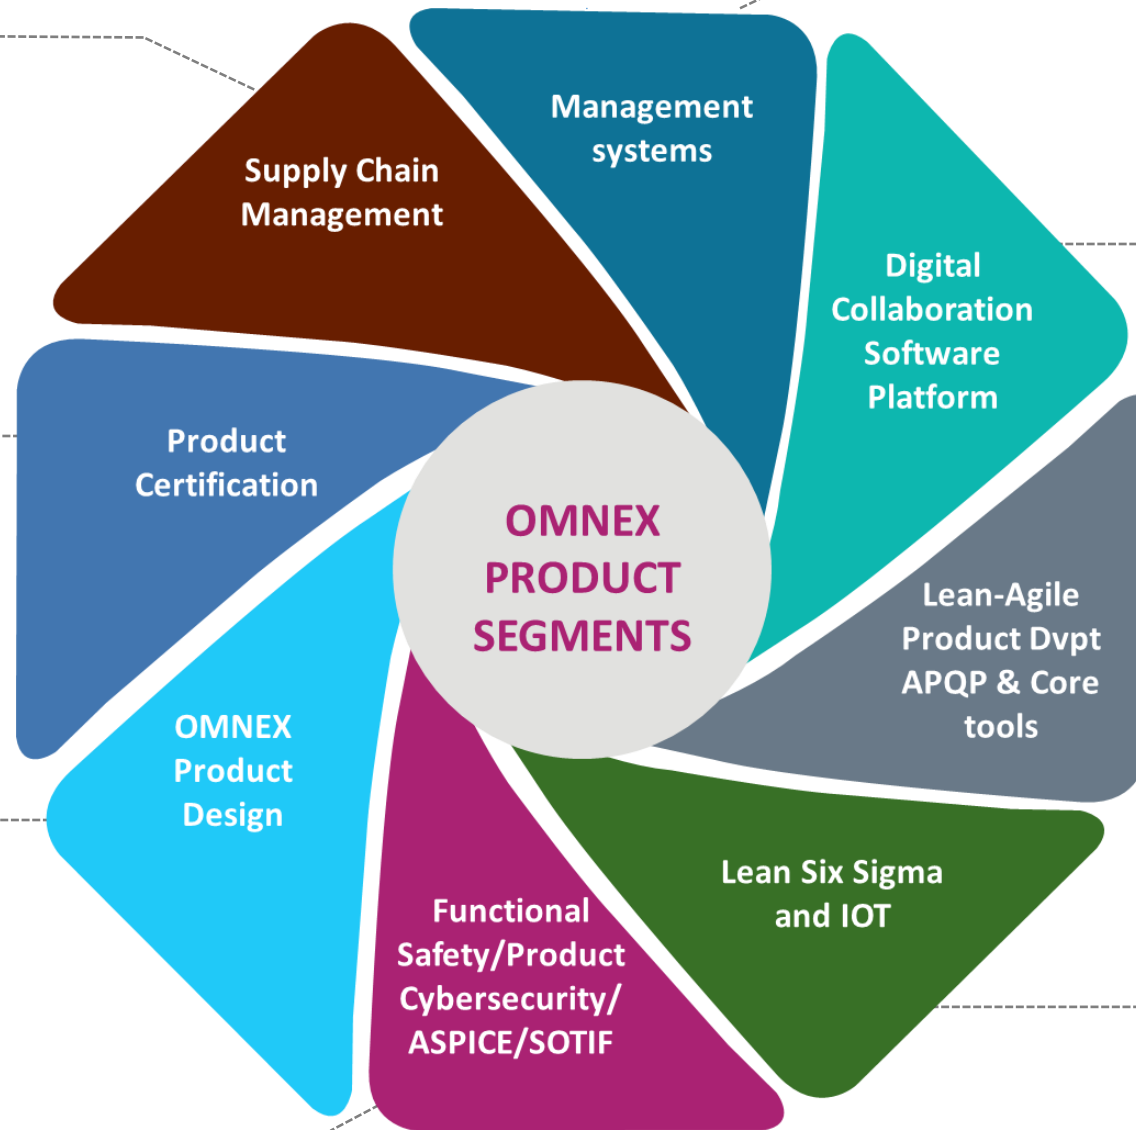

Omnex Product Segments

We set benchmark standards for implementing systems that integrate and connect the OEM-Tier1 – Sub suppliers in the Automotive Industry. Our Supply Chain activities have helped launch New programs for many large companies worldwide.

Our Safety & Security Certification focuses on Product & Process certification for FuSA, ASPICE Cybersecurity & SOTIF. Whether assessment or safety case reviews, Omnex is your partner.

Omnex Design works with your Design teams as your extended arm in designing FuSA compliant products for the EV-AV industry. We have extensive experience of working with more than a dozen commodities

Automotive Functional Safety (FuSA), ASILs, and related EV-AV standards will govern the Automotive Management systems. We have been in the forefront of these standards since the year 2000

We help you implement various Management systems and design it to create value with our methodologies, which include integration, Standardization and Commonization

Implementing improvement methods and complying to your QHSE, NPD, and Supply Chain requirements is difficult without a technology advantage. Omnex's Software Collaboration platform helps you implement these with ease.

Rapid Product Development, supported by the Core tools and APQP, is the back bone of any Industry. Omnex helps in training & implementation of the Integrated Lean-Agile New Product Development process and cuts down NPD time.

Omnex's LSS Strategy focuses on Cost savings and reducing Non-Value added items. Our key focus emphasizes quick adaptive learning and coaching sessions. We have saved over US\$ 4 Billion for our customers.

Omnex Services: Delivery Model

TRAINING & COMPETENCY DEVELOPMENT

- Omnex regularly conducts training programs in all major geographies
- Courses available as
 - E- Learning
 - In Class, at your facility
