About Omnex

The Omnex journey began in 1985 in **Ann Arbor, Michigan**. Initially our work revolved around Training, Consulting/Coaching, and Auditing to different industry standards such as ISO 9001, 14001 to QS 9000 and AS 9000. Over the years, Omnex's motto, "**Building Business Excellence**", gained traction with global businesses and Omnex expanded worldwide. Currently we operate worldwide through our Regional headquarter offices in USA, Berlin-Germany, Chennai-India and Shanghai-China, with 16 worldwide offices. Omnex has worked with more than **35,000 clients,** as such we are one of the largest quality? consulting companies in our space, Business Excellence.

35 Years of Professional service experience & strategic operations consulting. Omnex has the unique experience of having worked with nearly **70% of the top** Automotive, Aerospace, Semiconductor Hi-Tech, and Medical device companies globally.

700+ Employees working in over 28 countries with management advisory experience for Improvement in Quality, Productivity, Supply Chain, Automation, and Digitalization. Omnex is one of the largest and most sought after Quality consulting companies in the world, with a proven expertise of Implementations, training, and Solutions to over 35,000 clients worldwide, including many Fortune 100 companies.

Founder & CTO**

Omnex Group focus

Omnex, and its group of companies, bring cutting edge business improvement practices, tools & methods that increase your competitiveness in the global market.

Safety, Security & Certification

We focus on certification assessments of Functional Safety Parts towards Cyber Security, Functional Safety and ASPICE.

Functional Safety Part Design

Omnex's Engineering Services division focuses on Hardware and Software development for Functional Safety, ASPICE, Cybersecurity and SOTIF. We have an Engineering and testing team located in the USA and India, who focus on the Engineering design aspects for your team.

Center of E-learning Excellence

CoEE focuses on Hybird-Learning using: Personalized Learning, Distance Learning, and Virtual Classrooms on Omnex Live-Learn's IT Platform. We use the 3-3-2 methodology as our hybrid learning structure.

Implementation & Coaching

We help implement Standards, Tools, and Methodologies for 6 major target markets. Not only do we help you with implementations, but we can also help Reskill or Upskill your workforce through 200+ workshops and Implementation programs.

Digital Collaboration Software Platform

Our IT Collaboration platform provides 7 major solutions for Automotive, EV-AV, Aerospace, Medical Devices, and Semiconductor-Hitech, including the Supply Chain. From New Product Development to Compliance Management to Electric-Vehicle Functional Safety, our platforms cover a wide range of application focused solutions, which give you a seamless, paperless, and digital factory management experience.

Outsourcing

Provides outsourced manpower for your teams' short-term needs: Augmenting your team' Skill & Competency gaps, Outsourcing of SQE, PPAP Reviews & Auditing, in addition to Specialized Staffing, Supply Chain Servicing, Auditing & Assessments, and Product & Process Improvement.

6 Target Markets

Automotive

Omnex entered the Automotive industry in 1985 by helping FORD & their suppliers. We are the pioneers in developing & implementing Automotive Industry standards from QS 9000 to IATF 16949 and beyond.

Aerospace

Omnex has been working with the Aerospace industry through our association with UTC & Bombardier. We continue to work with major Tier-1 suppliers to leading Aerospace OEM companies. Our Principal & Senior Engineers have made significant contributions to Aerospace industry supply chains in US, Asia, and Europe.

High Tech & Semiconductor

Omnex started work with the Semiconductor Industry when SAC, a Global Semiconductor member association, was looking for a Partner to help their member base in 1999. We continue working with the world's Top Semiconductor and Hitech organizations. Further, Omnex has started working with many of them in their foray into the EV-AV (Electric and Autonomous Vehicle) segments.

Medical Devices

Omnex works with 33 of the Top 100 Medical devices companies, and their Asia Supply Chains. Our Subject Matter Experts are on the Standards' writing committees for Medical Devices and are experts in regulatory compliance.

Electric & Autonomous Vehicles

Omnex works with the largest EV-AV OEMs and their Supply Chain. Right from Silicon Valley, to Tianjin, China- name the major players- we have worked with them for New Product Development, Localization, Process Compliance and Functional Safety.

General Manufacturing

We have been working with the "Who's Who" of the General Manufacturing & Engineering industry for Management Systems, Productivity, Lean/Six Sigma, Supply Chain & IT Digitization for over 35 years.

Omnex Group Services

Management Systems

We help you implement various Management systems and design it to create value. Our methodologies include integration, Standardization, and communization
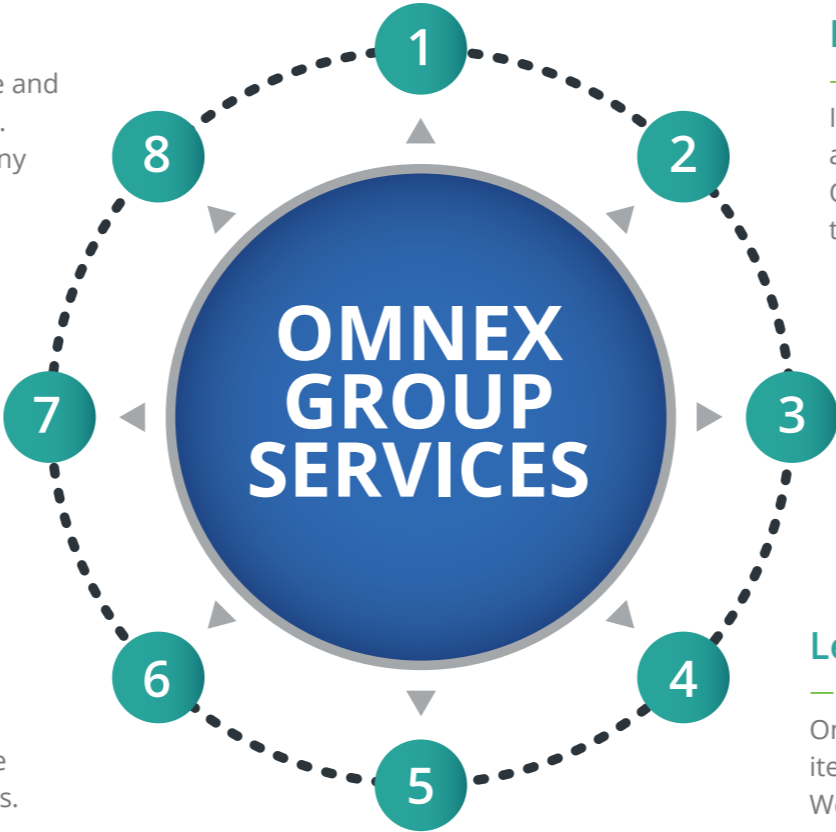

Lean Six Sigma and IOT

We set benchmark standards for implementing systems that integrate and connect the OEM-> Tier-1 –> Sub suppliers in the Automotive Industry. Our Supply Chain activities have helped launch New programs for many large companies worldwide.

Product Certification

Our Safety & Security Certification focuses on Product & Process certification for FuSA, ASPICE, Cybersecurity, and SOTIF. Whether assessment or safety case reviews, Omnex is your partner.

Omnex Product Design

Omnex Design works with your Design teams as your extended arm in designing FuSA compliant products for the EV-AV industry. We have extensive experience of working with more than a dozen commodities.

Digital Collaboration Software

Implementing improvement methods and complying to your QHSE, NPD, and Supply Chain requirements is difficult without a technology advantage. Omnex's Software Collaboration platform helps you implement these with ease.
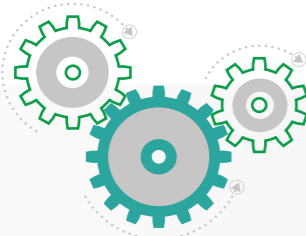

Lean-Agile Product Development

Rapid Product Development, supported by the Core tools and APQP, is the back bone of any Industry. Omnex helps in training and implementation of the Integrated Lean Agile New Product Development process and cuts down NPD time significantly.

Lean Six Sigma and IOT

Omnex's LSS Strategy focuses on Cost savings and reducing Non-Value added items. Our key focus emphasizes quick adaptive learning and coaching sessions. We have saved our customers over $4 Billion USD for our customers.

Functional Safety / Product Cybersecurity / ASPICE / SOTIF

Automotive Functional Safety (FuSA), ASILs, and related EV-AV standards govern the Automotive Management systems. We have been in the forefront of these standards since the year 2000.

Omnex Group of Companies

OMNEX SYSTEMS

- Headquartered in Ann Arbor, Michigan with development centers in Chennai, India and Shanghai, China
- Developed the world's 1st Patented APQP software as a part of the Quality Management Suite called Enterprise wise Quality & Integrated Management System Software. EwQIMS Suite now includes 7 distinct solutions across QHSE, APQP, & Functional Safety Solution Supplier Quality, EV-AV & TPM IIoT Solution
- EwQIMS is the most sought after Enterprise suite level software with more than 100,000 users and 500 customers worldwide
- Whether its Operational Excellence initiatives or Business transformation, EwQIMS is an integral part of bringing decision making to the C-Suite levels. Using technologies such as AI, BOTs and Machine Learning we ensure your processes perform as per the KPIs set, Preempt you to take action before any deviation occurs

OMNEX DESIGN

- The latest Omnex initiative from Omnex with a core focus to support companies of all sizes with design support services for ISO 26262, Functional Safety, and ISO 21434 Cybersecurity products and processes
- Our customized approach varies upon the type of projects, and the gap identified in the organization to create a custom solution
- Armed with hybrid solutions that have the flexibility to go back and forth between Engineering design, Consulting, Testing, Product Validation and Auditing

OMNEX ACADEMY — Building People Excellence

- Omnex Quality Academy was formed with an aim to help those new to the industry, namely recent University graduates gain practical knowledge of the world of business, quality and operational research
- The academy was created to enable the workforce to continuously learn and upgrade their knowledge and skills though our Core Certification courses
- Companies are interested in hiring a workforce that understands more than just book knowledge and Omnex Academy has become a finishing school for over 1000 students
- Faculty members who are industry experts from various parts of the globe and courses are currently offered in English, Spanish, Thai and Chinese in a variety of disciplines

OMNEX CENTER OF EXCELLENCE FOR E-LEARNING

- In an effort to provide value in an increasingly digital world of Learning and Development, Omnex Academy started the Center of Excellence for e-Learning (CoEE)
- Focussed on Experiential learning, our solutions use E-Learning, Augmented Reality & Virtual Reality, Simulators and Haptics to bring the best to our customers
- With our cost-effective programs conveniently available online, your employees, contractors and other parties can learn concepts at ease
- Omnex also develops customized training programmes on simulation-based learning and virtual learning environment On-Demand

OMNEX PLANTECH — Quality Outsourcing & Services

- PlanTech-Omnex, an ISO 9001 and Minority Certified company is in its third decade of Product and Process performance improvement.
- With a core aim of providing services that directly impact customer bottom line, we offer a full range of solutions on Outsourcing, Supplier Development and Audit Management
- We also provide staffing solutions for Project Management, Quality, Engineering, Supplier Quality Functional Safety, ASPICE and Cybersecurity.
