Transitioning to IATF 16949:2016

Seminar Content

With the release of IATF 16949:2016 this fall, now is the time to prepare. Omnex is offering a one-day transition training course that highlights the intent and content of the key changes from the ISO 9001:2008 revision. There will be class discussion and group exercises to reinforce the key learnings.

This course will not cover clauses of the Standard that did not significantly change. Omnex offers a separate two-day class, "Understanding the Requirements of IATF 16949:2016" for those who want to review each clause. There will be a closed book final exam to confirm participant understanding, but it will not adversely affect receiving credit for attendance.

Who Should Attend

This seminar is designed for Quality Assurance Managers, Management Representatives, IATF 16949 Implementation Teams, and quality management system auditors.

Recommended Training and/or Experience

A good working knowledge of ISO/TS 16949:2016 and ISO 9001:2015 is recommended.

Seminar Materials

Each participant will receive a seminar manual.

Seminar Goals

- ❖ Discuss the differences between the 2009 version of the IATF 16949 standard and the 2016 revision.
- ❖ Apply knowledge and understanding of the IATF 16949:2016 standard to begin implementation or update an existing Quality Management System to comply with IATF 16949:2016.

Seminar Outline

- ❖ Why is IATF 16949 Being Revised?
- ❖ What Are the Changes?
- ❖ What Are the Revision Timelines?
- ❖ Initial Transition Guidance
