Understanding Casting System Assessment (CQI-27)

Course Duration: 2 Days

Seminar Content

This one-day seminar is intended to provide participants with an overview of CQI-27, Special Process: Casting System Assessment, which, along with internationally recognized quality management system standards and customer-specific requirements, defines the fundamental requirements for the management system. The goal of the Casting System Assessment is the development of a casting management system that provides for continual improvement, emphasizing defect prevention and the reduction of variation and waste in the supply chain.

Learning Objectives

- ✦ Understand the scope of the Casting System Assessment.
- ✦ Prepare to conduct an assessment of a casting system in order to ensure it provides for continual improvement, emphasizing defect prevention and reduction of variation and waste in the supply chain.

Seminar Outline

- ✦ Introduction and Overview
- ✦ Assessor Requirements
- ✦ Casting System Assessment Procedure
- ✦ Process Requirement Tables

Who Should Attend

All team members involved in the casting management system would benefit from this seminar.

Seminar Materials

Each participant will receive a training manual and a copy of CQI-27 may be provided upon request, with additional cost billed to the participant.

Pre-Requisite

Experience in the assessment of casting management systems would be beneficial.
