Understanding Welding System Assessments (CQI-15)

Course Duration: 2 Days

Seminar Content

This one-day seminar is intended to provide participants with an overview of CQI-15, Special Process: Welding System Assessment, which, along with internationally recognized quality management system standards and customer-specific requirements, defines the fundamental requirements for a welding management system. The goal of the Welding System Assessment is the development of a welding management system that provides for continual improvement, emphasizing defect prevention and the reduction of variation and waste in the supply chain.

Learning Objectives

- ❖ Understand the scope of the Welding System Assessment
- ❖ Prepare to conduct an assessment of a welding system in order to ensure it provides for continual improvement, emphasizing defect prevention and reduction of variation and waste in the supply chain

Seminar Outline

- ❖ Introduction and Overview
- ❖ Assessor Requirements
- ❖ Welding System Assessment Procedure
- ❖ SECTION 1: Management Responsibility and Quality Planning
- ❖ SECTION 2: Floor and Material Handling Responsibility
- ❖ SECTION 3: Equipment

- ❖ SECTION 4: Tooling/Fixturing
- ❖ SECTION 5: Process Controls and Confirmation
- ❖ SECTION 6: Job Audit
- ❖ Process Requirement Tables

Who Should Attend

All team members involved in the welding management system would benefit from this seminar.

Seminar Materials

Each participant will receive a training manual. A copy of CQI-15 may be provided upon request, with additional cost billed to the participant.

Pre-Requisite

Experience in the assessment of welding management systems would be beneficial.
