Understanding Heat Treat Assessments (CQI-9)

Course Duration: 2 Days

Seminar Content

This one-day seminar is intended to provide participants with an overview of CQI-9, Special Process: Heat Treat System Assessment, which, along with internationally recognized quality management system standards and customer-specific requirements, defines the fundamental requirements for a heat treat management system. The goal of the Heat Treat System Assessment is the development of a heat treat management system that provides for continual improvement, emphasizing defect prevention and the reduction of variation and waste in the supply chain.

Learning Objectives

- ❖ Understand the scope of the Heat Treat System Assessment
- ❖ Prepare to conduct an assessment of a heat treat system in order to ensure it provides for continual improvement, emphasizing defect prevention and reduction of variation and waste in the supply chain

Seminar Outline

- ❖ Introduction and Overview
- ❖ Assessor Requirements
- ❖ Heat Treat System Assessment Procedure
- ❖ SECTION 1: Management Responsibility and Quality Planning
- ❖ SECTION 2: Floor and Material Handling Responsibility

- ❖ SECTION 3: Equipment
- ❖ SECTION 4: Job Audit
- ❖ Process Requirement Tables

Who Should Attend

All team members involved in the heat treat management system would benefit from this seminar.

Seminar Materials

Each participant will receive a training manual. A copy of CQI-9 may be provided upon request, with additional cost billed to the participant.

Pre-Requisite

Experience in the assessment of heat treat management systems would be beneficial.
