# Understanding Rubber Processing System Assessments (CQI-30)

Course Duration: 1 Day

## Seminar Content

This one-day seminar is intended to provide participants with an overview of CQI-30, Special Process: Rubber Processing System Assessment, which, along with internationally recognized quality management system standards and customer-specific requirements, defines the fundamental requirements for molding management system. The goal of the Rubber Processing System Assessment is the development of a rubber processing management system, including mixing and molding management, that provides for continual improvement, emphasizing defect prevention and the reduction of variation and waste in the supply chain.

## Learning Objectives

- Understand the scope of the Rubber Processing System Assessment
- Prepare to conduct an assessment of a rubber processing system in order to ensure it provides for continual improvement, emphasizing defect prevention and reduction of variation and waste in the supply chain

## Seminar Outline

- Introduction and Overview
- Assessor Requirements
- Scope of the Rubber Processing System Assessment
- Rubber Processing System Assessment Procedure
- SECTION 1: General, Pre-audit Survey
- SECTION 2: Management Responsibility and Quality Planning
- SECTION 3: Job Audit – Finished Product Review

- SECTION 4: Rubber Mixing
- SECTION 5: Inspection and Testing
- SECTION 6: Facilities and Equipment
- SECTION 7: Molding
- SECTION 8: Substrate Penetration

## Who Should Attend

All team members involved in the rubber processing management system would benefit from this seminar.

## Seminar Materials

Each participant will receive a training manual. A copy of CQI-30 may be provided upon request, with additional cost billed to the participant.

**Note:** Omnex does not provide copies of standard(s) during training courses, but clients are encouraged to have their own copy.

## Pre-Requisite

Experience in the assessment of rubber processing management systems would be beneficial.
